

RONDALE FLOYD M. BUFETE

Backend Developer | AI & Cloud Integrations

09516101009 | bufete.rondalefloyd@gmail.com | Zone 1 Liboro, Ragay, Camarines Sur, Philippines

PROFESSIONAL SUMMARY

Backend developer experienced in building AI-enabled applications, REST APIs, cloud integrations, and database-backed services. Hands-on experience with OpenAI GPT Realtime API, WebRTC, retrieval-augmented generation, Google Places API, AWS, Azure, and backend modernization. Collaborative contributor in Agile, cross-functional delivery teams.

TECHNICAL SKILLS

Backend & APIs: Python, FastAPI, Flask, Django, REST APIs, SQLAlchemy, Alembic, JWT

AI & Integrations: OpenAI GPT Realtime API, WebRTC, embeddings, RAG, document-grounded Q&A, Google Places API

Cloud & Data: Microsoft Azure, PostgreSQL, MySQL, SQL Server, Redis, AWS Lambda, API Gateway, IAM, S3, CloudFormation, CloudWatch, SES, DynamoDB

Frontend & Delivery: JavaScript, TypeScript, React.js, Next.js, Vue.js, Docker, GitHub Actions, Azure DevOps, Git, Jira, Postman, Agile Scrum, Monday.com

PROFESSIONAL EXPERIENCE

Backend Developer - REINSW Client | Cloudstaff

February 2026 - Present

- Serve as primary backend developer for an AI-driven real-estate property search platform serving the Australian market.
- Modernized legacy backend code using SQLAlchemy and Alembic, improving maintainability and database change management.
- Design and implement REST APIs for property search, AI assistant workflows, and third-party integrations.
- Integrated OpenAI GPT Realtime API, WebRTC voice workflows, Google Places API / Nearby Search, and embedding-based document Q&A.
- Improved query performance through indexing and reduced AI token usage by optimizing prompts and limiting context to relevant data.

Cloud Developer | iCXeed Philippines Inc.

June 2025 - February 2026

- Built Amazon Connect deployment automation with AWS Lambda and CloudFormation, reducing deployment time by 80% across 10+ enterprise deployments.
- Developed API-based user provisioning and automated reporting pipelines using Lambda, S3, and SES.
- Remediated AWS Security Hub findings and strengthened IAM and encryption controls.

Software Developer | GCM3 Inc.

February 2024 - April 2025

- Developed IVR systems and full-stack web applications using Next.js and Django for 5 clients across 10+ deployments.
- Managed SIT/UAT, client integrations, deployment pipelines, and environment configuration.

Full-stack Developer | S&M Superstore

June 2023 - June 2024

- Developed a multi-branch POS system using Next.js and Django, covering inventory, sales, and reporting workflows.
- Designed and maintained the MySQL database supporting transaction processing and reporting dashboards.

Frontend Developer Intern | Ateneo de Naga University, CCS

June 2022 - August 2022

- Contributed JavaScript and Python features to a gamified student task-management application and created UI prototypes in Figma.

EDUCATION

Bachelor of Science in Computer Science | Ateneo de Naga University | June 2019 - June 2023 | Honorable Mention
